7/2022/4054 - Demolition of Ennerdale Mill

FAO Paula Allen

Following on from the consultation response from Nick Thorne in regards to the need for the closure of the Public Right of Way for the demolition of Ennerdale Mill we have reviewed the need for the closure of this during the works. Our contractor has confirmed that they will be able to keep this path open for the duration of the works through the use of banksman. There may be a need for short closures of the path (5/10 min) for some movements of vehicles to and from site but this will be managed by the contractor and appropriate signage and information boards regarding the works will be in place.

In regards to the bridge removal – this is an old steel plate which acted as a bridge during the use of the Mill and isn't related to the bridge on the public right of way that will not be impacted by the proposed works

Hopefully this answers the queries raised, if you need anything further then do not hesitate to contact me

Regards

Matt
