

Supporting statement.

Due to exceptional circumstances, I have applied for retrospective planning for temporary accommodation at Low Stowbank Farm.

The proposal is to site a large mobile home as temporary accommodation for myself and my family at the family farm. The mobile home will be used for housing of myself and family and for no other purpose. The home is situated close to the existing house.

I work at Low Stowbank Farm as a farmer with my father. Unfortunately, my father is in ill health and is unable to continue working as he did. As a result I am taking majority control of the work on the farm and need to live permanently on the farm in the countryside to do this.

I need to be on site to look after the farm and be close to the stock. It is necessary for me to be there at all hours due to the nature of the work.

Home improvements and alterations are currently being carried out to enable us all to live in the existing house at Low Stowbank Farm in the future.

Graham Whitfield
