For Your information.

I reported a Forestry lorry to Gareth last Saturday which had grounded and scraped the road outside our house quite significantly

Hi Susan

Sorry Ive not had time to respond to your email earlier this week its been very busy.

Thankyou for flagging this incident to us. I'm aware this dip has caused low loaders problems in the past. The road is part of the Timber Haulage agreed route so it really is upto the Highways Authority to ensure that it is suitable and repair any problems.

I'm copying in my colleague Dan to look at the dangerous branch and see what we can do. Dan please can you investigate next week.

RE the car park alterations the car park will be open from this evening for the weekend , closed again on Monday after which it should reopen fully on Tuesday.

Many thanks

Gareth

This Message originated outside your organisation.

Hi Gareth

Extraction lorry driver had a bit of a fright on Saturday morning when the lorry grounded outside our house. He slammed on the breaks. Got out and then carried on. The lorry was heading out and fully laden and has taken a good gouge out of the road. Images attached.

Also there is a low hanging branch which they keep hitting at the same point. can you do anything about it for us? The highways say it is not dangerous enough. I rather disagree as I have to drive under it very day and big vehicles keep hitting it.

Cheers

Susan
