350L compost

Metre Square Planter (MSP-0P)

Cost £323

Supplier Amberol

Size 1040mm Compost 490L

# Scenic Metre Square

The 1 metre square is our most popular planter and is the core building block for many types of floral schemes. Water is retained in a large self-watering reservoir and with compost volumes kept down with large internal shoulders, the key cost elements of water and compost have been carefully minimised.

### Benefits

- Hard wearing and hard working
- Robust construction for long life
- Soft Edge - these smooth edges allow flowers to flow over
- Rain Groove to prevent water staining
- Forklift runners for easy transport

Size (mm):	1000 x 1000 x 770 (LWH)
Capacity:	175l water, 225l compost

Available in all our colours.  
See page 4.

Self-Watering Scenic Square Planter with Gold Trim (Black) - **£274.70 each (Based on 1-9 Units)**

Secure Delivery on Tail Lift Wagon - **£50.00 Per Pallet (2 x Planter Per Pallet)**

Everything you need for creating stunning floral displays for any pole or lamppost up to a 110mm max diameter. Easily installed the Pagoda Pole Basket Package provides a high impact display while offering security and stability. With all the great features you would expect from the Pagoda range, our Pole Basket is designed to be an extremely hardwearing, cost effective and low maintenance planting solution.

The Pagoda Pole Basket comes with our popular self-watering capillary matting and features an easy fill watering channel for fuss-free maintenance. The smooth edges allow plants to flow over easily, and its UV stable and highly durable construction mean it will look great season after season.

Our Easy Drain feature allows the reservoirs to be emptied while still in situ, making removal and transportation significantly less labour intensive – and less risky. Our Self Watering Liners mean installing and removing planting is also simple and hassle free.

### Included in the Pagoda Pole Basket Package:

- 2 x Pagoda Pole Basket Half Units
- 2 x Self-Watering Removable Liners
- 2 x Steel Fixing Brackets

Overall Diameter:	685mm
Height:	405mm
Water Capacity:	20 Litres
Compost Capacity:	16 Litres
